

# **The Social Life of Climate Change Models**

Anticipating Nature

**Edited by Kirsten Hastrup and  
Martin Skrydstrup**

# Contents

<i>List of Figures</i>	vii
<i>Preface and Acknowledgements</i>	ix
<b>1 Anticipating Nature: The Productive Uncertainty of Climate Models</b>	<b>1</b>
KIRSTEN HASTRUP	
<b>2 How Climate Models Gain and Exercise Authority</b>	<b>30</b>
MIKE HULME	
<b>3 Certain Figures: Modelling Nature among Environmental Experts in Coastal Tamil Nadu</b>	<b>45</b>
FRIDA HASTRUP	
<b>4 Enacting Cyclones: The Mixed Response to Climate Change in the Cook Islands</b>	<b>57</b>
CECILIE RUBOW	
<b>5 Anticipation on Thin Ice: Diagrammatic Reasoning in the High Arctic</b>	<b>77</b>
KIRSTEN HASTRUP	
<b>6 Deciding the Future in the Land of Snow: Tibet as an Arena for Conflicting Forms of Knowledge and Policy</b>	<b>100</b>
HILDEGARD DIEMBERGER	
<b>7 Scaling Climate: The Politics of Anticipation</b>	<b>128</b>
ÁSDÍS JÓNSDÓTTIR	

8	<b>Emancipating Nature: What the Flood Apprentice Learned from a Modelling Tutorial</b>	144
	ANDERS KRISTIAN MUNK	
9	<b>Modelling Ice: A Field Diary of Anticipation on the Greenland Ice Sheet</b>	163
	MARTIN SKRYDSTRUP	
10	<b>Predictability in Question: On Climate Modelling in Physics</b>	183
	PETER D. DITLEVSEN	
11	<b>Constructing Evidence and Trust: How Did Climate Scientists' Confidence in Their Models and Simulations Emerge?</b>	203
	MATTHIAS HEYMANN	
12	<b>Afterword: Reopening the Book of Nature(s)</b>	225
	MARTIN SKRYDSTRUP	
	<i>Contributors</i>	231
	<i>Index</i>	235
