

# NEUROSCIENCE OF PREJUDICE AND INTERGROUP RELATIONS

*Edited by Belle Derks,  
Daan Scheepers, and Naomi Ellemers*

# CONTENTS

<i>Contributors</i>	<i>ix</i>
1 The “Nature” of Prejudice: What Neuroscience has to Offer to the Study of Intergroup Relations <i>Daan Scheepers, Naomi Ellemers, and Belle Derks</i>	1
<b>PART I</b>	
<b>Categorization and In-group Favoritism</b>	<b>23</b>
2 Imaging the Pictures in Our Heads: Using ERPs to Inform Our Understanding of Social Categorization <i>Tiffany A. Ito</i>	25
3 The Implicit Effects of Social Identity: Measuring Early Social Categorization with Event-related Brain Potentials <i>Belle Derks</i>	45
4 Oxytocinergic Circuitry Motivates Intragroup Cooperation and Intergroup Competition <i>Carsten K. W. De Dreu</i>	63

<b>PART II</b>		
<b>Person Perception and Stereotyping</b>		<b>87</b>
5	Scanning for Scholars: How Neuro-imaging the MPFC Provides Converging Evidence for Interpersonal Stratification <i>Susan T. Fiske, Daniel L. Ames, Mina Cikara, and Lasana T. Harris</i>	89
6	Social Identity Shapes Social Perception and Evaluation: Using Neuroimaging to Look Inside the Social Brain <i>Jay J. Van Bavel, Y. Jenny Xiao, and Leor M. Hackel</i>	110
7	The Role of Memory Consolidation during Sleep in Social Perception and Stereotyping <i>Michael A. Zárate and Luke R. Engle</i>	130
8	Heart Rate and Heart Rate Variability Responses to Stereotype Activation among Non-stereotyped Individuals: Stereotype Lift in the Motor Domain <i>Aïna Chalabaev, Philippe Sarrazin, and Jeanick Brisswalter</i>	146
<b>PART III</b>		
<b>Overcoming Implicit Prejudice</b>		<b>165</b>
9	Implicit Prejudice and the Regulation of Intergroup Responses: Theoretical Contributions of the Social Neuroscience Approach <i>David M. Amodio</i>	167
10	Event-related Brain Potentials and the Role of Cognitive Control in Implicit Race Bias <i>Bruce D. Bartholow</i>	190
11	Moral Accountability and Prejudice Control: Evidence from Cardiovascular and EEG Responses <i>Naomi Ellemers and Félice Van Nunspeet</i>	209

<b>PART IV</b>		
<b>Coping with Prejudice and Identity Threat</b>		<b>227</b>
12 The Biopsychosocial Model of Challenge and Threat: Reflections, Theoretical Ubiquity, and New Directions <i>Jim Blascovich</i>		229
13 Studying Social Identity-based Threats and Challenges Using Cardiovascular Measures <i>Daan Scheepers</i>		243
14 Physiological and Self-report Measures of Stress and Coping in the Study of Stigma <i>Rodolfo Mendoza-Denton and Elizabeth Page-Gould</i>		260
<b>PART V</b>		
<b>Intergroup Interactions</b>		<b>277</b>
15 Using EEG Mu-suppression to Explore Group Biases in Motor Resonance <i>Jennifer N. Gutsell and Michael Inzlicht</i>		279
16 Inspired by the Question, Not the Measure: Exploiting Neurobiological Responses in the Service of Intergroup Research <i>Wendy Berry Mendes</i>		299
17 Suspicion in Interracial Interactions: Using Measures of Cardiovascular Reactivity to Index Threat <i>Brenda Major and Jonathan W. Kunstman</i>		316
18 From Behavior to Brain and Back Again: Case Studies on the Use of fMRI to Investigate Intergroup Threat and Trust <i>Katie N. Rotella and Jennifer A. Richeson</i>		334
<i>Index</i>		355
