<i>List of figures, tables, boxes and appendices</i>	ix
<i>List of contributors</i>	xvii
<i>Preface</i>	xxi
<i>Acknowledgements or credits list</i>	xxv
PART 1	
Concepts and theory	1
1 Image, perception and cultural authority of science – by way of introduction	3
MARTIN W. BAUER, PETRA PANSEGRAU AND RAJESH SHUKLA	
2 The authority of science revisited – mainly Anglo-European	22
PETER WEINGART	
3 Scientific temper and cultural authority of science in India	32
GAUHAR RAZA	
4 The authority of science in Korea: a new explication and measurement	44
HAK-SOO KIM	

PART 2

Mediated authority – comparing the science news flow 57

**5 Science and the news flow 1990–2014,
in Germany, UK and India** 59

BANKOLE FALADE, MARTIN W. BAUER, RAJESH SHUKLA,
AND PETRA PANSEGRAU

**6 The intensity of media attention as an index of
authority of science** 86

PETRA PANSEGRAU AND MARTIN W. BAUER

**7 Framing science: discourses and representations in
UK and Germany** 105

PETRA PANSEGRAU AND GERGANA POPOVA

**8 Bridging a gap – mapping the science coverage of
South African newspapers** 122

LARS GUENTHER, PETER WEINGART, AND MARINA JOUBERT

**9 Science news in Turkey: data mining techniques for
science culture mapping** 137

AHMET SÜERDEM

**10 The great narrative: analysing the cultural authority
of science through media attention in Italy** 155

F. NERESINI AND A. LORENZET

PART 3

Perceived authority – cross-sectional and longitudinal 171

**11 The cultural distance from science and the role of
science education in India: a logit model** 173

AMIT SHARMA AND RAJESH SHUKLA

**12 The science, the paranormal, cohorts and cognitive
polyphasia: the authority of science in Taiwan** 190

YUH-YUH LI AND CHUN-YEN TSAI

13 Authors: all contributors	210
14 Vaccines, Polio and Ebola: religion and traditions compete with scientific authority in West Africa BANKOLE FALADE	211
15 Decades of change - Brazilian perceptions of science 1987–2015 YURIJ CASTELFRANCHI	228
16 Correlational stability in the US-NSF science & engineering surveys 1979–2014 JOHN BESLEY	250
17 Attitudes towards science in the World Values Surveys – longitudinal evidence 1981–2014 FABIENNE CRETТАZ VON ROTEN	264
18 Public perception of science and technology in Argentina 2003–2015: longitudinal and structural analysis CARMELO POLINO AND ANA MUÑOZ VAN DEN EYNDE	278
PART 4	
Inferred assumptions: comparing the culture as frame of reference	299
19 Four cultures of science across Europe MARTIN W. BAUER AND AHMET SÜERDEM	301
20 Exploring the cultural authority of science in South Africa through public attitudes to science SAAHIER PARKER AND JOHANN MOUTON	319
21 Comparing the Public attitude towards science across provinces in China XUAN LIU, FUJUN REN, AHMET SÜERDEM, XIANG LI AND MARTIN W. BAUER	339

22 All India attitude to science: data mining and analysis of the structure of attitudes	356
RAJESH SHUKLA, AHMET SÜERDEM, AMIT SHARMA, BIJAY CHOUHAN AND POOJA SHARMA	
PART 5	
Conclusion	375
23 The cultural authority of science – summary and future research agenda	377
MARTIN W. BAUER, BANKOLE A. FALADE, AND PETRA PANSEGRAU	
<i>Index</i>	383
