1 Introduction: ethnography for a data-saturated world 1
Hannah Knox and Dawn Nafus

Part I: Ethnographies of data science

2 Data scientists: a new faction of the transnational field of statistics 33
Francisca Grommé, Evelyn Ruppert and Baki Cakici

3 Becoming a real data scientist: expertise, flexibility and lifelong learning 62
Ian Lowrie

4 Engineering ethnography 82
Kaiton Williams

Part II: Knowing data

5 'If everything is information': archives and collecting on the frontiers of data-driven science 105
Antonia Walford

6 Baseless data? Modelling, ethnography and the challenge of the anthropocene 128
Hannah Knox

7 Operative ethnographies and large numbers 151
Adrian Mackenzie

Part III: Experiments in/of data and ethnography

8 Transversal collaboration: an ethnography in/of computational social science 183
Mette My Madsen, Anders Blok and Morten Axel Pedersen

9 The data walkshop and radical bottom-up data knowledge 212
Alison Powell

10 Working ethnographically with sensor data 233
Dawn Nafus

11 The other ninety per cent: thinking with data science, creating data studies 252
Joseph Dumit interviewed by Dawn Nafus
