CONTENTS

<i>List of contributors</i>	<i>xii</i>
<i>Acknowledgements</i>	<i>xv</i>
<i>Foreword by Shane Blackman</i>	<i>xvi</i>
PART I	
Introduction	1
1 Introducing ethnography and its rationale for healthcare practitioner use <i>Christopher M. Hayre and Paul M. W. Hackett</i>	3
PART II	
Ethical considerations	9
2 Ethical considerations in ethnography <i>Jessica Schwarzenbach and Paul M. W. Hackett</i>	11
3 Ethics of online research with human participants <i>Jeff Gavin and Karen Rodham</i>	23
4 Cultural variation in informed consent for clinical research participation <i>David Resnik and Julia Hecking</i>	33
5 Encountering hostility in ethnographic research <i>Christopher M. Hayre and Paul M. W. Hackett</i>	47

PART III		
Design and planning		55
6	The door-to-door ethnographer: recruiting patients and healthcare providers for ethnographic research <i>Melinda Rea-Holloway and Steve Hagelman</i>	57
7	Ethnographic research design <i>Ruth Montgomery-Andersen and Michelle M. Doucette</i>	67
8	The declarative mapping sentence as a framework for conducting ethnographic health research <i>Paul M. W. Hackett</i>	80
PART IV		
Interviewing in ethnographic research		95
9	Getting deep in the pain: understanding people through ethnographic research <i>Antonella Fabri</i>	97
10	An ethnography of a universally designed play environment <i>Hira Hasan and Susan Squires</i>	107
11	To be on a diet: ethnography of weight loss between beauty, food, and violence <i>Martina Grimaldi</i>	128
12	The clinician-patient interaction: crossing the chasm of expectations <i>Gillie Gabay</i>	141
13	Constructing ethnographic data in medical education <i>Jonathan Tummons</i>	153
PART V		
Visual/sensory ethnography		165
14	Visual ethnography in health and healthcare: concepts, steps, and good practices <i>Laura Lorenz and Bettina Kolb</i>	167

PART VI		
Auto/ethnography		181
15	Institution(alization), bureaucracy, and well-being? An organizational ethnography of perinatal care within the National Health Service <i>Tom Vine</i>	183
16	Critical autoethnography and mental health research <i>Stacy Holman Jones and Anne Harris</i>	197
PART VII		
Observational methods in ethnographic research		211
17	Ethnographers in scrubs: ethnographic observation within healthcare <i>Melinda Rea-Holloway and Steve Hagelman</i>	213
18	Ethnographic investigations of a diagnostic imaging department <i>Ruth Strudwick</i>	224
19	The ALIVE! Project: understanding the intersection between faith and soul food using ethnographic methods <i>Deirdre Guthrie and Elizabeth Lynch</i>	234
PART VIII		
Note-taking and writing up		257
20	Fieldnotes in ethnographic research <i>Ruth Strudwick</i>	259
21	Writing and representation <i>Michael Klingenberg</i>	264
PART IX		
Journals and diaries		275
22	Ethnographic diaries and journals: principles, practices, and dilemmas <i>Graham Hall</i>	277
PART X		
Narrative analysis		291
23	Narrative ethnography: how to study stories in the context of their telling <i>Ditte Andersen</i>	293

24	In the quest of resilience in elder patients: solutogenics <i>Gillie Gabay</i>	301
25	And the anthropologist made the “emotional note” <i>Haris Agic</i>	313
PART XI		
	Projective techniques	327
26	Projective techniques in health research <i>Taylor Malone and Paul M. W. Hackett</i>	329
27	Being creative using projective techniques <i>Paul M. W. Hackett</i>	341
PART XII		
	Focus groups	351
28	Using focus groups in healthcare research <i>Alicia Carlson and Paul M. W. Hackett</i>	353
29	Focus group research in healthcare <i>Immy Holloway</i>	364
PART XIII		
	Multiple methods	375
30	Becoming a physician of the people in a rural mountain community in Mexico <i>Deirdre Guthrie</i>	377
31	Breaking down silos: the value of interdisciplinary production of knowledge for (health) innovation <i>Tamira Snell</i>	388
PART XIV		
	Analyzing data	401
32	Analyzing the data: conditions, meanings, and reasonings analysis <i>Tine Aagaard</i>	403

Contents

33	Computer-Assisted Qualitative Data Analysis Software (CAQDAS) and ethnographic health research <i>Aine M. Humble</i>	414
34	Ethnographic and qualitative data analysis <i>Immy Holloway</i>	425
35	Ethnographic creative non-fiction: the creation and evolution of <i>Lily's Lymphedema</i> <i>Elise Radina</i>	438
PART XV		
Novel approaches		453
36	Mapping network disturbances: case studies that demonstrate the use of an ethnographic approach to health and well-being research <i>Maria Louise Bonnelykke</i>	455
37	Why happiness studies ought to include qualitative research components <i>Cathrine V. Jansson-Boyd and Anke Plagnol</i>	467
38	A whole-school approach to health and well-being: an auto-ethnographic account of a primary school <i>Jonathan Glazzard</i>	481
PART XVI		
Conclusion		491
39	Conclusions and the future of ethnography in health-related research: challenges and innovations <i>Paul M. W. Hackett and Christopher M. Hayre</i>	493
40	Coronavirus and COVID-19: qualitative healthcare research during and after the pandemic <i>Paul M. W. Hackett and Christopher M. Hayre</i>	503
41	Black Lives Matter: birdwatching in Central Park and the murder of George Floyd <i>Paul M. W. Hackett and Jessica Schwarzenbach</i>	513
	<i>Index</i>	522
