Technology Policy

Towards an Integration of Social and Ecological Concerns

Editors
Georg Aichholzer and Gerd Schienstock

Walter de Gruyter · Berlin · New York 1994

Contents

Preface V

Technology Policy in the Process of Change: Changing Paradigms in Research and Technology Policy? 1
Gerd Schienstock

1 Introduction 1
2 Traditional Motives for Public R&T Policy 2
3 From Material Technology to Technological Practice 6
4 The Crisis of Growth-oriented R&T Policy 10
5 The Role of Technology Policy: Support or Regulation? 12
6 R&T Policy as a Social Experiment 17
7 Conclusion 20
References 22

From Socio-economic to Socially Oriented Innovation Policy 25
Richard Badham

1 Introduction 25
2 Socio-economic Innovation Policy 27
2.1 Conventional Wisdom 27
2.2 Institutional Implementation 29
2.3 Socially Oriented Technology Policy 30
3 The Dualistic Model of Technology Policy 31
4 Socially Oriented Innovation Policy 33
4.1 The Limitations of Socio-economic Innovation Policies 33
4.2 The Nature of Socially Oriented Innovation Policies 34
4.3 Neo-Taylorist and Skill-Based Manufacturing Trajectories 35
5 Socially Oriented Innovation Policy Institutions 36
5.1 Technology Transfer and Diffusion Mechanisms 37
5.2 Management and the Development of Human Capital Incentives 38
5.3 Workers Representatives and Concrete Codetermination Support 38
5.4 Nationally Based Skill Formation Restructuring 39
6 European Promotion of Human Centred or Anthropocentric Systems 40
6.1 European Projects and Programmes 40

6.2 The Socio-technical Trajectory Defined 45
6.3 Key Issues of Human Centred System Promotion 55
6.3.1 Direct Promotion 56
6.3.2 Technology Orientation 57
6.3.3 Social Orientation 58
7 Conclusion 59
Notes 61

Technology Policy: The Interaction between Governments and Markets . . 67
Charles Edquist

1 Introduction 67
2 Some Characteristics of Technological Change and Technology Policy 67
3 How Technology Policy is Formulated and Implemented in Practice 70
3.1 The Usefulness of Theory as a Basis for Technology Policy 70
3.2 Imitation – A Common Mode of Technology Policy-making 71
3.3 Lobbying as a Mechanism behind Technology Policy 74
3.4 "Diagnostic Analyses" – an Alternative Basis for Technology Policy-making 75
4 Objectives of Technology Policy 77
5 Reasons for State Intervention in the Process of Technological Change 80
6 Instruments of Technology Policy 82
Notes 85
References 92

Promote or Regulate: The Dilemma of Innovation Policy 95
Ernest Braun

1 Introduction 95
2 Technology Policy and Technological Innovation 96
2.1 The Scope of Technology Policy 96
2.2 Definition of Technological Innovation 98
2.3 The Role of Technological Innovation in the Economy 99
3 The Perceived Need for Innovation Policy 101
3.1 Reduction of Risk for Private Enterprise 102
3.2 Public Requirements for New Technologies 103
3.3 Directing Private Innovation toward Public Needs 104
4 Ways of Promoting Innovation 108
4.1 A Taxonomy of Possible Support Measures 108
4.2 Research and Development 110
4.3 Direct Support for Innovation 114
4.4 Procurement 115
5 Need for Regulation 116
5.1 Adequacy and Compatibility of Products 116
5.2 Safety and Health 117
5.3 Environmental Protection 118

6 Modes of Regulation 120
7 Summary and Conclusions 121
References 122

New Technology Policy Concepts: Some Reflections on Technology and Work Humanization in West Germany 125
Richard Badham and Frieder Naschold

1 Introduction 125
2 New Technology Policy Concepts 126
3 Traditional Limitations of Work Design Reforms and Programmes 128
4 The Japanese Challenge 129
5 National Conditions of NTPCs 135
6 Background and History of the West German Humanization of Work Programme 138
6.1 International Background 138
6.2 Key National Influences 140
6.3 Three Phases of the Programme 141
7 New Technology Policy Concepts in the West German Humanization of Work Programme 143
7.1 Overview 143
7.2 The Complex Nature and Tensions within NTPCs 148
7.3 The Impact and Significance of the NTPCs 151
7.3.1 Management Domination of Investment Strategies 151
7.3.2 Lack of Programme Integration 152
7.3.3 Problems of Diffusion 153
7.3.4 Indirect Benefits 154
8 Conclusion 154
Notes 157
References 157

Designing Sustainability of Industrial Society 161
Udo E. Simonis

1 Introduction 161
2 Ecological Structural and Technological Change of the Economy 162
2.1 De-linking Economic Growth from Environmentally Significant Inputs . 162
2.2 Examples of Successful and Unsuccessful De-linking 163
2.3 Trends Towards Industrial Restructuring 166
3 Preventive Environmental Policy 167
3.1 Environmental Expenditures – Environmental Damages 167
3.2 Basic Conditions of Preventive Environmental Policy 172
3.3 Environmental Impact Assessment as Part of Preventive Policy 173
4 Ecological Orientation of Economic Policy 175
4.1 Conflicts between Economy and Ecology 175
4.2 Ecological Self-Regulation of the Economy 176
4.3 Ecological Economic Policy 178

5 Conclusions 179

Constructive Technology Assessment: A New Approach for Technology Assessment Developed in the Netherlands and its Significance for Technology Policy 181
Joey van Boxsel

1 Introduction 181
2 Social and Environmental Consequences of Technology: The Emergence of Technology Assessment 182
3 Science and Technology Policy in the Netherlands and their Broader Concerns 184
4 Technology Assessment in the Netherlands 187
5 The Idea of "Constructive Technology Assessment" 189
6 CTA: Experiences of NOTA 192
6.1 CTA Case Studies 192
6.2 Technology Dynamics 193
6.3 Constructive TA Projects by NOTA 193
6.4 Dissemination Activities 195
7 The Future of Constructive Technology Assessment 196
8 The Significance of Constructive TA for Technology Policy 200
References 202

Integrating Social and Environmental Costs into High-tech Industrial Development Planning: Experiences and Expectations in the United States 205
Gregory A. Daneke

1 Introduction 205
2 Regional Economics and the High-tech Solution? 206
3 The Problematic Panacea 206
4 A Mixed Blessing 208
5 The Curious Case of Groundwater Management 209
6 Additional Environmental and Social Costs 211
7 Towards a Sustainable Perspective 213
8 Re-orienting Economic Institutions 216
9 Conclusions 218

National Policies Devoted to Technology and the Environment in France: Towards an Integrative Approach? . . . 249
Lahsen Abdelmalki and Thierry Kirat

1 National Technology Policy and General Innovation-Supporting Mechanisms 251
1.1 Theory and Practice of National Policy in Favour of Science and Technology . . . 251
1.2 From Scientific Policy to Technology Policy . . . 252
1.3 Technology, Institutional Change and National Policy . . . 253
2 French Environmental Policy, Past and Present . . . 254
2.1 Environment and Environmental Policy: An Introduction . . . 254
2.1.1 Definition and Scope of the Environmental Issue . . . 254
2.1.2 Trends and Practice in Environmental Policy . . . 255
2.2 Features of French Environmental Policy . . . 257
2.2.1 A Belated, Flexible and Centralized Environmental Policy . . . 257
2.2.2 The Tools of the Environmental Policy . . . 259
2.2.3 The Institutional Infrastructure of Environmental Policy and its Recent Evolution . . . 261
3 The Technological Dimensions of Environmental Protection and their Impact on National Policy . . . 264
3.1 Technological Creation and Environment: From Knowledge to Innovation . . . 265
3.2 Trends in the Organization and Nature of Technologies in the Field of Environmental Protection . . . 265
3.3 Do Environmental Technologies Reveal a Rift in the Industrial System? 268
4 National Policies: Between Theoretical Views and Social Realities . . . 270
4.1 The Instruments of Economic Analysis in Environmental Policy . . . 270
4.2 Environmental Protection as Central to Social Attitudes and Technological Choices . . . 272
5 Conclusion . . . 274
Notes . . . 275

Towards a Social Orientation in Finnish Technology Policy 323
Torsti Loikkanen and Esko-Olavi Seppälä

1 Introduction 323
2 Policy for R&D 323
3 Finnish (Science and) Technology Policy 329
3.1 Prior to the 1980s 330
3.2 From the Technology Committee to the Government's Report to Parliament in 1985 330
3.3 The Science and Technology Policy Council 332
4 Towards a Social Orientation? 333
4.1 The Social Orientation 333
4.2 The Role of Technology Policy for Finnish Economic and Social Development 334
4.2.1 Developments before the 1980s 334
4.2.2 Towards Social Orientation in the 1980s 336
4.2.3 Technology Assessment Efforts 338
4.2.4 Intermediate Summary 339
4.3 A Case: Integration of Environmental and Technology Policies 340

4.3.1 Developments Prior to the 1980s 340
4.3.2 Towards an Integrative Approach 341
4.3.3 Intermediate Summary 343
4.4 Assessment of Finnish Development 344
5 Conclusions 345

Technology Policy in Spain: Issues, Concerns and Problems 349
Luis Sanz-Menendez and Emilio Muñoz

1 Introduction 349
2 Antecedents of the Spanish Situation in Science and Technology: 1940-1975 . 352
2.1 From Self-sufficiency to the Stabilization Plan: 1939-1959 352
2.2 The Period of "Developmentism" in Spain: 1960-1975 354
3 The Position of Science and Technology during the Democratic Transition . . 357
4 Public Policy Actions in Science and Technology 359
4.1 The Reform of the Science/Technology System in Spain in the 1980s . . 359
4.2 The Instruments of Reform 360
4.3 Technological Policy and the National R&D Plan 362
4.4 Technology Policy and the Ministry of Industry and Energy 363
5 Large Policies, Little Ecological and Social Awareness 364
6 Conclusion. Convergence with Europe: How Far are We? 369

Technology Policy under Conditions of Social Partnership: Development and Problems of an Integrated Strategy in Austria 375
Georg Aichholzer, Renate Martinsen and Josef Melchior

1 Introduction 375
2 Structural Conditions of Technology Policy in Austria 375
2.1 The Problem of Small States 375
2.2 Economic Structure 376
2.3 The Policy Pattern of Social Partnership 378
2.4 New Challenges 379
3 Development and Organization of Technology Policy 380
3.1 Initial Phase 380
3.2 Integration Phase 382
3.3 Distribution of Competences 382
3.4 Decision-making 383
4 Goals, Instruments and Resources of Technology Policy 385
4.1 Technology Policy Concept 385
4.2 Instruments 386
4.3 Expenditures 390
5 State of Affairs and Problems Regarding the Implementation of an Integrated Technology Policy 392
5.1 Policy Mix and Effects 392

5.2 Considering Social and Ecological Aspects 394
