Contents

List of figures vii
List of tables and boxes ix
List of contributors xi
Acknowledgments xv

1. Learning from science and technology policy evaluation 1
Philip Shapira and Stefan Kuhlmann

2. The academic policy analyst as reporter: the who, what and how of evaluating science and technology programs 18
Irwin Feller

3. Societal challenges for R&D evaluation 32
Arie Rip

4. Frameworks for evaluating S&T policy in the United States 54
Susan E. Cozzens

5. Evaluation of research and innovation policy in Europe – new policies, new frameworks? 65
Luke Georghiou

6. The expanding role of peer review processes in the United States 81
David H. Guston

7. The evaluation of university research in the United Kingdom and the Netherlands, Germany and Austria 98
David F.J. Campbell

8. Challenges for the evaluation of complex research programmes 132
Terttu Luukkonen

9. Evaluation of the BRITE/EURAM program 154
Laurent Bach, Marc-Jacques Ledoux and Mireille Matt

10. Assessing RTD program portfolios in the European Union 174
Ken Guy

11. Factors affecting technology transfer in industry–US federal laboratory partnerships 204
James S. Dietz

12. Benchmarking university–industry relationships: a user-centered evaluation approach 223
Louis G. Tornatzky

13. Evaluation of regional innovation policies in Europe 244
Patries Boekholt

14. Evaluating manufacturing extension services in the United States: experiences and insights 260
Philip Shapira

15. Evaluating the impacts of grants on women scientists' careers: the curriculum vitae as a tool for research assessment 293
Elizabeth Corley, Barry Bozeman and Monica Gaughan

16. Recognizing the competing values in science and technology organizations: implications for evaluation 316
Gretchen B. Jordan and Devon Streit

17. Real options for evaluating public sector R&D investments 339
Nicholas S. Vonortas and Matt Lackey

18. Evaluation as a source of 'strategic intelligence' 352
Stefan Kuhlmann
