<i>List of contributors</i>	vii
1 Introduction to the <i>Handbook of Public Funding of Research: understanding vertical and horizontal complexities</i> <i>Benedetto Lepori, Ben Jongbloed and Diana Hicks</i>	1
<b>PART I PUBLIC POLICIES AND RESEARCH FUNDING</b>	
2 What is <i>public</i> about public research? The case of COVID-19 R&D <i>Barry Bozeman</i>	21
3 Motivations guiding public research funding in science, technology and innovation (STI) policy: a synthesis <i>Aixa Y. Alemán-Díaz</i>	38
4 Politics of public research funding: the case of the European Union <i>Inga Ulnicane</i>	55
<b>PART II POLICY MIXES IN PUBLIC RESEARCH FUNDING: LAYERING AND COMPLEXITY</b>	
5 Ideas and instruments in public research funding <i>Giliberto Capano</i>	73
6 Performance-based research funding and its impacts on research organizations <i>Gunnar Sivertsen</i>	90
7 R&D programs as instruments for governmental R&D funding policy <i>Emanuela Reale, Magnus Gulbrandsen and Thomas Scherngell</i>	107
8 Size matters! On the implications of increasing the size of research grants <i>Carter Bloch, Alexander Kladakis and Mads P. Sørensen</i>	123
9 Potentials and limitations of program-based research funding for the transformation of research systems <i>Susanne Bühner, Sarah Seus and Rainer Walz</i>	139
10 Targeting research to address societal needs: what can we learn from 30 years of targeting neglected diseases? <i>Josie Coburn, Ohid Yaqub and Joanna Chataway</i>	156
11 The construction of competition in public research funding systems <i>Stefan Arora-Jonsson, Nils Brunsson and Peter Edlund</i>	172

PART III INTERACTION OF FUNDING SYSTEMS WITH  
ORGANIZATIONAL STRUCTURES AND HIERARCHIES

- 12 Incentives, rationales, and expected impact: linking performance-based research funding to internal funding distributions of universities 186  
*Jussi Kivistö and Charles Mathies*
- 13 Research funding in the context of high institutional stratification: policy scenarios for Europe based on insights from the United States 203  
*Arlette Jappe and Thomas Heinze*
- 14 Public research organisations and public research funding 221  
*Laura Cruz-Castro and Luis Sanz-Menéndez*

PART IV RESEARCHERS' INTERACTION WITH THE FUNDING  
ENVIRONMENT

- 15 Reframing study of research(er) funding towards configurations and trails 242  
*Duncan A. Thomas and Irene Ramos-Vielba*
- 16 Researchers' responses to their funding situation 261  
*Grit Laudel*
- 17 Gender and underrepresented minorities differences in research funding 279  
*Laura Cruz-Castro, Donna K. Ginther and Luis Sanz-Menéndez*
- 18 Research funding and scientific careers 301  
*Julia Melkers, Richard Woolley and Quintin Kreth*
- 19 Research funding and academics' scholarly performance 322  
*Hugo Horta and Huan Li*

PART V SYSTEM PERSPECTIVES AND COUNTRY VARIATIONS

- 20 Context matters: conceptualizing research funding policies through the lens of the varieties of academic capitalism approach 340  
*Olivier Bégin-Caouette, Silvia Mirlene Nakano Koga and Émanuelle Maltais*
- 21 System-level insights into public funding of research from emerging economies 361  
*Juan D. Rogers*
- 22 Public research funding in Asian latecomer countries: developmental legacy and dilemmas 378  
*So Young Kim*

- Index* 395
